

- **Lease (\$30, \$40 w/ hook vocals)**

You may use for a single, mixtape, or music video. Profitable up to 2,000 units. If you need more than this, consider semi-exclusives. Untagged Mp3 file.

- **WAV Lease (\$40)**

Same as regular lease, only with this option you get the high quality master WAV file.

- **Track Out Lease (\$100)**

Same rights as regular lease, but with this you get the separated WAV files for mixing/arranging capabilities.

- **Semi-Exclusives (\$200)**

This is the closest thing to exclusive rights besides...exclusive rights. With this option, you are allowed unlimited profits, uses, etc.. No limitations. The ONLY difference between this option and full exclusive rights is that we still own the copyrights to the beat(s). If you are interested in full exclusives, contact us for pricing as it varies per beat.
